Ethan Turkeltaub

Brooklyn, NY — ethan.turkeltaub@gmail.com — (860) 573-0947

Experience

Aircall

Apr 2018 — present

Software Engineer

Working across the entire stack of Ruby back-end services and TypeScript/React front-end applications. Architected and lead development of microservices for regulatory compliance and ecosystem projects. Utilized Ruby, TypeScript, and many AWS products.

Oak Studios

Jun 2015 — Mar 2018

Full Stack Web Developer

Worked on developer and designer-oriented products Siteleaf and Dropmark. Primary developer for Siteleaf, and led projects to significantly increase performance of static site publishing, as well as improve the usability and design of the product. Primary developer for projects with clients CreativeMornings and Working Not Working. Utilized Ruby, Rails, MongoDB, Vue.js, and React.

Fanzter

Jun 2011 — Sept 2014

Web Developer

Created and maintained social networking and mobile applications using Ruby on Rails, as well as created internal utilities and tooling for support.

Education

Marist College

Sept 2013 — Apr 2017

B.S. Computer Science

Major in Computer Science, with minors in information systems and information technology. Member of the Honors Program.

Skills

Ruby (including Sinatra, Ruby on Rails), AWS (ECS, ECR, EB, SNS, SQS, etc), Terraform, Docker, JavaScript (including jQuery, React, Vue.js), TypeScript, Haskell, RDBMS, NoSQL (including MongoDB, Redis), CSS (with SCSS/Sass), HTML
